In 1998, a Canadian – Marianne Schaubeck – initiated a program to build a school for extremely impoverished tiny tots. The project came to fruition in the form a 3-room school building with proper facilities. Ongoing fundraising continues to sustain and maintain *the school project*. The charity also provides small salaries to the teaching staff, maintenance of the buildings, books and supplies, and meals for the needy children. The school is a haven of bliss for over 200 impoverished children who learn, play, and have two meals a day.
